SUMMARY

- **Versatile Full-Stack Developer** with a strong foundation in designing, implementing, and deploying scalable web applications and RESTful APIs. Expertise in backend development with **Node.js (1.5+ years)** and proficiency in building user interfaces using **React.js** and **TypeScript**. Proven ability to organize data storage in **PostgreSQL/SQL** and implement robust CI/CD and containerization practices (**Docker, Kubernetes**) for automated deployment.

FULL-STACK DEVELOPMENT EXPERIENCE (1.5+ YEARS)

- **TronDAO Grantee / Open-Source Contributor** Remote
Lead Full-Stack/Backend Developer (Node.js/TypeScript/React) Aug 2024 - Present (Continuous)
 - **Renthub-BTFS (Gateway for File Hosting)**: Engineered a **RESTful API** and developed a high-speed file upload wrapper using **Node.js/TypeScript**, including a developer SDK for seamless integration.
 - Designed and managed **PostgreSQL database structure** and wrote a ****React.js**** UI with a clean, intuitive interface for data input and display.
 - Implemented a **fCI/CD pipeline** (Jenkins/Docker/K8s) to automate testing and deployment, ensuring a stable, scalable, and production-ready environment.
- **Freelance Web Service Developer** India
Backend/Full-Stack Developer (Node.js/MERN) Oct 2023 - Jan 2024
 - **Web Services and Platforms**: Utilized the **MERN (Node.js/Express.js/React)** stack to develop and deploy web services for clients, focusing on robust and secure API communication.
 - Gained practical experience in efficient **MongoDB query writing** and designing backend logic for production environments, maintaining uniform development standards.
- **Google Developer Student Club (GDSC)** IIIT Vadodara
Blockchain Developer & Technical Contributor March 2023 - March 2024
 - Collaborated on technology demonstrations and various projects, contributing to robust backend implementation.

SELECTED FULL-STACK AND SCALABILITY PROJECTS

- **Pegasus-Pay (Crypto Payment Gateway)** June 2025 - Present
Scalable architecture for high-volume dApp payments
 - Architected a **lifecycle-driven payment gateway** with a context-based pipeline to handle high-volume, real-time flows, enabling automated settlement and server-side calculations.
 - Deployed the application on **Kubernetes** using Helm charts to manage service discovery and load balancing for a resilient, scalable backend.
- **Project Delphi (Decentralized Prediction Market)** Aug 2025 - Sep 2025
High-performance DeFi platform on TRON
 - Developed the user-facing **React.js** with smart contract interaction.
 - Designed the system architecture to ensure **high-availability and fault tolerance** in a distributed setting, a foundation for complex business logic.
- **Multi-Agent Environment (Resource Orchestration Platform)** Nov 2024 - Dec 2024
Modular Platform for Agent Deployment and Workflow Management
 - Developed a modular platform with a comprehensive **React.js frontend** and backend APIs for workflow and resource management.
 - Implemented an Agent Orchestrator to manage Agents in a closed environment, while having a communication bus to handle task inflow and a unified pub-sub interface to access/command the agents.

TECHNICAL SKILLS

- **Backend & Core**: **Node.js** (2+ years), NestJS, Go, **TypeScript**, Microservices Architecture, RESTful API Design & Documentation, Server-Side Calculations (Business Logic), **Django/FastAPI (Willingness to learn)**
- **Frontend**: **React.js**, Next.js, **TypeScript**, Electron.JS, HTML/CSS, Web3 UI/UX, State Management
- **Databases & SQL**: **PostgreSQL** (Primary), **Postgress**, **SQL** (MongoDB), **SQL Queries**, Redis, Indexing, Transactions
- **DevOps & Cloud**: **Docker**, **Kubernetes** (Helm), **CI/CD** (Jenkins, ArgoCD), Cloud (AWS, GCP)
- **Integration & Tools**: REST API integration, **External Service Integration** principles (API communication), Git, GitHub, Testing (Jest, Chai.js), Automation
- **Other Tech**: Solidity, TRON/Polygon, Smart Contracts, HardHat, Algorithms, Data Structures

EDUCATION

- **Indian Institute of Information Technology, Vadodara India** 2022-2026
